An ISO Certified Company

About Us

JOINT GLOBAL BUSINESS COMPANY (Saudi Arabia), a branch of multinational US based company JGB USA International specialized in the supply of HVAC, Electro-Mechanical, Oil & Gas, Insulation, Marine, Military, Water and other Industrial segments. Through the Corporate office at Houston, USA and branch offices in UAE, Qatar, Oman, Kuwait, Bahrain, India and Canada, we provide engineered industrial solutions from internationally reputed products coupled with excellent customer service & technical support, adding value to their business.

The company has the expertise and ability to supply products for major EPC and specialized projects. The engineering and support staff bring you a broad base of scientific and technical knowledge to draw on with years of practical experience in the related products. We are committed to quality products, excellent technical support, and fast deliveries and reliable after sales support.

Over the last few years, JGB has been continually evolving to position itself as a leading supplier of various engineered products in the region. In the changing landscape, it is anticipated that customer demands will change rapidly, and expectations will also increase exponentially. Our customers are faced with multitude of challenges to ensure speedy project execution, deliver cost efficiently, actively manage environmental and sustainability concerns, safety and risk management and increasing regulatory compliance needs. JGB is innovating specific to engineering to ensure greater engineering predictability, thereby being able to provide substantial reductions in project cost and time.

The foundation and the driving force of our growth are our people. From vision to excellence, it has been the contribution of individuals and the teamwork that has made this fast-passed growth possible. Whether the international market or be it challenges or strategies, we are proud to say that in JGB every individual contributes. We have grown together over many years and the team spirit will ensure that we will continue to grow.

Vision

To be internationally renowned customer focused company offering comprehensive solutions and quality products

Mission

Serve customers by procuring and supplying quality products manufactured by internationally reputed manufacturers

Corporate Values

- *Customer satisfaction & loyalty Employee dignity*
- *Organizational & individual growth*
- *Technical excellence with professional ethics*
- *Responsibility to society*

Industries

- *MEP / HVAC Construction*
- *Oil & Gas*
- *Petrochemical*
- *Chemical*
- *Pharmaceutical*
- *Power*
- *Water*
- *Food & Beverage*

Product Range

- *MEP / HVAC Equipment & Accessories*
- *Oil & Gas Field Products*
- *Electrical Products*
- *Instrumentation Products*
- *Water & Industrial Equipment*
- *Industrial Insulation & Accessories*

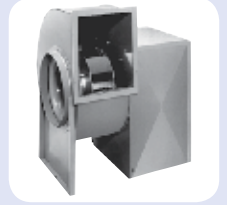

PENNBARRY™

PennBarry is a leading manufacturer of full service ventilation products for commercial and light industrial applications, including energy recovery units, make-up air systems, kitchen hoods and supreme fan supply and exhaust products.

With history of making fans since 1860, Pennbarry is the consolidation of several well-known HVAC brands, including Bayley Fans, Penn Ventilation, Barry Blower, Industrial Air and SupremeFan, and many key products from these brands are still made available under the PennBarry brand.

Product List

- ✓ Inline Cabinet Fans
- ✓ Centrifugal Fans
- ✓ Tubular Centrifugal Fans
- ✓ Mixed Flow Fans
- ✓ Roof Mounted Down Blast Fans
- ✓ Roof Mounted Up Blast Fans
- ✓ Propeller Fans
- ✓ Tubeaxial & Vaneaxial Fans
- ✓ Gravity Ventilators

THE NEW YORK BLOWER COMPANY

The New York Blower Company (NYB) (USA) Industrial Fans and Blowers designs and builds fans and blowers to move air in all types of commercial and industrial applications. Today, NYB has one of the most complete portfolios in the world, consisting of literally thousands of different types, models and sizes of air-movement equipment.

NYB product lines are conveniently organized in major product groupings to assist you in identifying the best fan for your system.

Product List

- ✓ Inline Fans
- ✓ Centrifugal Fans
- ✓ Fiberglass Reinforced Plastic Fans
- ✓ Plenums and Double Width Fans
- ✓ Process Heat or Plug Fans
- ✓ Packaged Fans
- ✓ Custom Fans
- ✓ Silencers / Flex Connectors

Fans, Silencers & Systems

Strobic Air Corporation, a recognized technological leader in the air movement industry, specializes in technologically advanced exhaust systems for laboratory fume hoods in university, public health, government, and chemical, pharmaceutical, industrial and other process industries.

With more than four decades of experience in addressing the needs of laboratory researchers and facility owners, Strobic Air has continued to develop and enhance its Tri-Stack Roof Exhaust systems to provide even greater

Product List

- ✓ Fume Exhaust Systems
- ✓ Tri-Stack Smart Systems
- ✓ Ventilator Heat Recovery System
- ✓ HEPA Filtration System
- ✓ Exhaust Fan Silencers

CAR PARK, TUNNEL & SMOKE FANS

We can offer you right products for wide range of applications including Smoke Extract, Car Park Extract and Tunnel Ventilation. We have a range of axial flow fans and jet fans specifically designed for tunnel and metro applications. Their features include high efficiency, low noise, durability, high reliability and low maintenance.

Product List

- ✓ Ventilation systems for car parks and Tunnel
- ✓ Axial Smoke Fans

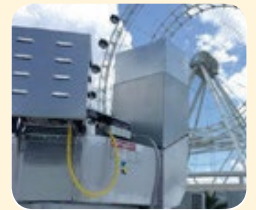

CaptiveAire® (USA) is leading manufacturer of commercial kitchen ventilation systems. As the industry's innovator, CaptiveAire® sets the standard for commercial kitchen ventilation equipment and service, and offers the most competitive pricing. CaptiveAire® is also known for the fastest and most reliable lead times in the industry.

CaptiveAire's integrated kitchen ventilation packages include hoods, exhaust fans, electrical controls, direct-fired heaters, grease duct systems, fire suppression systems, grease filters and utility distribution systems.

Product List

- ✓ Ecology Units
- ✓ Kitchen Hood Supression System
- ✓ Kitchen Hood

Caddy Corporation specializes in engineering custom solutions for food delivery and return systems, utility distribution, and air ventilation hoods for the food service industry. By working with customers through every phase of the process from planning to manufacturing, installing, and servicing the equipment, Caddy is able to offer the highest quality products in the industry from a single source, backed by their own extended warranty.

Through the years, Caddy has built a long tradition of high quality products, innovation, and outstanding customer support in the food service industry, and will continue to do so for many years in the future.

Product List

- ✓ Ecology Units
- ✓ Kitchen Hood Supression System
- ✓ Kitchen Hood

Dynamic Air Quality Solutions is located in Carleton Place, Ontario, USA and released its Dynamic Air Cleaner brand for the first time in 1982. Dynamic Air Cleaners utilize active-field, non-ionizing polarized-media technology.

Dynamic has pioneered and perfected its application to air cleaning in general HVAC applications, and is the leader in manufacturing products using polarized-media technology. The company has over 100 patents worldwide for their products.

Product List

- ✓ Polarized-Media Electronic Air Cleaners
- ✓ Integrated Air Purification Systems
- ✓ Activated Carbon Matrix Systems
- ✓ Germicidal UVC Systems

INERTIAL FILTERS & BLEED FANS

Filtrotecnica Italiana located in Sariano di Gropparello (Piacenza – Italy) was established in 1979 and is a leader exclusively in air filtration and dust collection field for civil and industrial applications. Production has qualified personnel and modern numeric control machinery for steel carpentry and it is equipped with a filter test rig as well as instruments for test "in situ".

These types of inertial filters and bleed fans are mainly used in desert areas on gas turbines, centrifugal compressors, big engines, air conditioning and ventilation systems etc.

Product List

- ✓ Inertial Separators (Filters) & Bleed fans
- ✓ Cyclone Filters
- ✓ Bag and Rigid Pocket Filters
- ✓ Nuclear Decommissioning Filters
- ✓ Rotary Screen Viscous Filters
- ✓ Electrostatic Filters

PLYMOVENT®

clean air at work

PLYMOVENT (USA & NETHERLANDS) is major global player that supplies products, systems and services for air extraction and filtration. Plymovent provides solutions for indoor air pollution caused, for instance, by welding fumes, vehicle emissions and tobacco smoke ensuring clean air in your workplace. Clean air is something that we most of us take for granted.

However, everywhere where people work, visible and invisible air pollutants, such as welding fumes, oil mist, tobacco smoke, vehicle emissions, dust and viruses are a hazard to people's health. Plymovent is committed to ensuring a clean and healthy working environment for its customers

Product List

- ✓ Emergency Vehicle Exhaust System
- ✓ Fire Stations
- ✓ Welding Fumes

SEAT VENTILATION (FRANCE) with nearly 50 years of experience in the field of laboratory fume extraction systems, SEAT VENTILATION, has become one of the few leading manufacturers of polypropylene fans in the world.

Our products are corrosion-resistant polypropylene fans and blowers but also airflow monitors and controls for laboratory fume cupboards.

Our areas of application are:
Laboratories, chemical industry, electronics, hospitals etc.

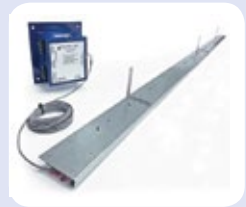

PlasmaAir

Plasma Air, USA, part of the WellAir Group, is a leading manufacturer of ionization air purification technology. Specializes in providing intelligent, energy reducing air purification systems for indoor building environments. The Plasma Air HVAC purification systems use highly efficient bipolar ionization technology to neutralize indoor air pollutants while supporting the engineering community by utilizing ASHRAE's Standard 62.1 IAQ procedure to reduce outside air intake.

Plasma Air systems have been proven in thousands of applications to provide the highest level of air quality improvement for airports, train systems, schools, hotels, arenas, offices and homes.

Product List

- ✓ Residential
- ✓ Commercial
- ✓ Marine
- ✓ Industrial
- ✓ Air Handlers

Gas Phase Filtration

Gas Phase Filtration specializes in custom design solutions for a wide range of vapor phase air purification and contaminant control applications. Proven Technology is developed and applied by Gas Phase Filtration in order to provide efficient, cost effective systems.

Product List

- ✓ ODOR CONTROL UNIT
- ✓ CHEMICAL FILTERS

Custom Controls Company (USA) has been providing Hazardous Location and Explosion Proof HVAC equipment for industry since the 1960's having production facility in Houston, TX.

CCC offers a full complement of customized and Third Party Listed HVAC solutions for both the U.S. National Electric Code (NEC) market and International (ICE standards) market. Our NEC Division One, Division Two and IEC Zone 2 HVAC (ATEX) product lines include:

Product List

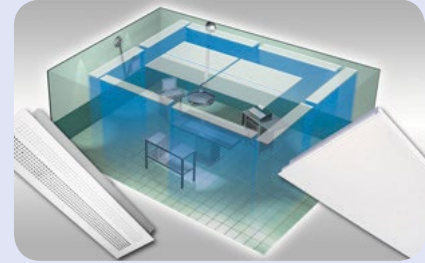

- ✓ Wall Mount Air Conditioners
- ✓ Window Units (Through-the-Wall Air Conditioners)
- ✓ Building Pressurization Units
- ✓ Hazardous Duty and Explosion Proof Exhaust Fans
- ✓ Purge Blowers
- ✓ Packaged Air Conditioners - for Pad or Roof Mounting
- ✓ Explosion Proof Heaters
- ✓ Refrigeration Units
- ✓ Dehumidifiers
- ✓ Split Systems
- ✓ Explosion Proof Fans

ANEMOSTAT (USA) Air Distribution Products provide complete range of VAV / CAV, Diffusers, Registers, Security Grilles, Critical Environmental Products for Operation rooms etc. For those special needs, we also provide products customized to fit all needs. Products are available in Steel, Aluminum, Extruded Aluminum and Stainless steel.

Product List

- ✓ Variable Air Volume (VAV) & Constant Air Volume (CAV) UNITS
- ✓ Air Outlets
- ✓ Critical Environmental Products (Operation Rooms)
- ✓ Security Grilles

TUTCO (USA) is a manufacturer, custom designing and creating products that are highly reliable and that help our customers get to market faster. Whether it is solving a problem with an existing product, adding new features, or inventing a new heating component, Tutco's depth of experience and technology is unparalleled. Innovation is not just a word to TUTCO - it's how we do business, one customer at a time.

Product List

- ✓ Duct Heaters
- ✓ Open Coil Heaters
- ✓ Tubular Heaters
- ✓ VAV Heaters

DriSteam (USA) is a premier provider of humidification, evaporative cooling, and water treatment solutions for commercial and industrial applications. DriSteam offers custom systems for critical indoor environments such as health care, data centers, and other facilities requiring precise control of moisture and cooling in the air.

DriSteam's 50 year history of development and innovation has resulted in multiple patented designs that not only meet, but anticipate customers' unique needs.

Product List

- ✓ Electric Resistive-Element Steam Humidifiers
- ✓ Self-Contained-Electro type Steam Humidifiers
- ✓ Non-Pressurised and Pressurized Steam Dispersion
- ✓ Steam Injection type Humidifiers for AHU's

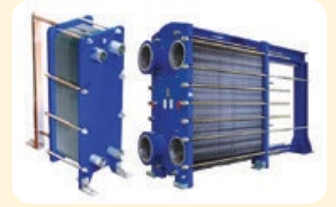

Advanced Industrial Components (AIC) Inc. (CADNADA) has been manufacturing heat exchangers and heat transfer equipment since 1988. AIC provides heat exchangers to the HVAC, hydronic, power generation, district energy, oil & gas, refrigeration, cryogenic, food & beverage, pharmaceutical, marine, and many other industries. AIC offers a wide variety of heat exchangers from standard plate & frame, brazed plate, and shell & tube units to high temperature, high pressure, chemically resistant and custom units.

Product List

- ✓ A-Line Plate & Frame Heat Exchangers
- ✓ B-Line Shell & Tube Heat Exchangers
- ✓ E-Line Condensing Economizers
- ✓ JAD Shell & Coil Heat Exchangers
- ✓ L-Line Brazed Plate Heat Exchangers
- ✓ M-Line Shell & Tube Heat Exchangers
- ✓ P-Line Shell & Tube Heat Exchangers
- ✓ PS/PW-Line Shell & U-Tube Heat Exchangers
- ✓ REX Tank Instantaneous Indirect Water Heaters
- ✓ TW-Line Shell & Tube Heat Exchangers

AIR CURTAINS

We supply a wide range of Air Curtains for commercial as well as industrial applications. An air curtain is a fan-powered device that creates an invisible air barrier over the doorway to separate efficiently two different environments, without limiting the access of the people or vehicles. We are working with many specialized manufacturers who are manufacturing the standard sizes as well as custom sizes based on the project requirements.

Our Air Curtain solutions are cost effective and reliable solutions which are tailored to your needs.

Lawler Manufacturing Company (USA) established in 1988, manufactures one of the deepest and most time-tested thermostatic mixing valve lines in North America. The company's sole focus is the safe and comfortable blending of hot and cold water to meet the needs of the industrial plumbing industry and its customers.

Valves are available in a variety of finishes, piping configurations and cabinet designs to meet you requirements.

Product List

- ✓ Thermostatic Mixing Valves
- ✓ Emergency Valves
- ✓ Shower Valves

U.S. Bellows, Inc. has been designing and manufacturing engineered pipe and duct expansion joints for the industry since the 1960s and has been a proud member of the Expansion Joint Manufacturers Association (EJMA) since 2002.

Engineering and designing is done per EJMA equations as well as per the latest revisions of the ASME B31.3, ASME B31.1, and ASME Section 8, Division 1. U.S. Bellows designs are performed using in-house developed design software and calculations further checked using hand calculations. U.S. Bellows also has full in-house finite element analysis capabilities and we often use this methodology to prove designs

Product List

- ✓ Metallic Pipe Expansion Joints
- ✓ Fabric Pipe Expansion Joints
- ✓ Stock Bellows

SKYCO

SKYLIGHTS

SKYCO (USA) Skylights and Smoke Vents understands the demanding energy performance requirements found in the latest Energy Codes and offers a wide range of high-performance products to insure that the code requirements are met, or in most cases exceeded, all achieved with a superior level of quality.

Your expectations for top quality skylight products are the driving force behind everything we do, and our products clearly demonstrate that commitment to our customers.

Product List

- ✓ Commercial Industrial Skylights
- ✓ Residential Skylights
- ✓ Custom Structured Skylights
- ✓ Heat and Smoke Vents
- ✓ Canopy Structures
- ✓ SkyGlaze Translucent Systems
- ✓ Roof Hatches and Accessories
- ✓ Safety Security Products
- ✓ BIPV Systems Photovoltaics
- ✓ Tubular Skylights

PCTI

PCTI, USA can provide the frequency converters you need for any commercial, industrial or military application including 400Hz frequency converters for aircraft ground support and other combinations of input/output frequencies (50Hz, 60Hz, 400Hz, etc). Frequency converters are available as mobile, towable, bridge mount or freestanding units to standards including MIL-STD-70F, MIL-STD-810, MIL-STD-461 and others. PCTI is also a regular manufacturer of static frequency converters, solid state frequency converters, solid state frequency converters, 400Hz frequency converters and custom frequency converters.

Product List

- ✓ DC & AC Power Supplies
- ✓ High Voltage Battery Chargers
- ✓ Power Electronic Modules

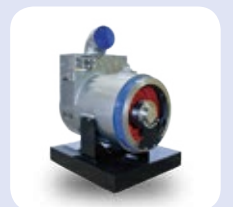

KATO

ENGINEERING

Kato Engineering Inc., a company of Nidec Corporation, offers a complete line of precision-engineered, top quality AC generators, motor-generator sets and controls for prime, standby, and peak shaving power generation known under the brand KATO™.

They have a 83-year tradition of design and manufacturing excellence and innovations and their name is synonymous with dependable power generation worldwide.

wozair

Wozair specializes in the design and manufacture of high integrity Heating Ventilating and Air-Conditioning (HVAC) equipment for the Offshore Oil and Gas, Nuclear, Marine, Petrochemical, Pharmaceutical, Process and Energy Industries.

All of the activities of Wozair are performed with modern production techniques following the quality standards BS EN ISO 9001 and latest CAD/CAM solutions.

Product List

- ✓ Blast Dampers
- ✓ Blast Tube Arrays
- ✓ Fire Dampers
- ✓ Gas Dampers
- ✓ Control Dampers

FULTON (USA) is a global manufacturer specialized in custom engineered industrial and commercial heating systems featuring steam boilers, hot water and hydronic boilers, thermal fluid (hot oil) heaters, temperature control units and a full range of ancillary equipment.

Product List

- ✓ Steam Boilers
- ✓ Commercial Heating Products
- ✓ Thermal Fluid Products
- ✓ Ancillary Equipments
- ✓ Engineering Systems

Odour control technics based on

- ✓ Passive units: suitable for small manholes, air valves etc.
- ✓ Activated carbon system with many options: dual fans, Automated regulation, water re-generable carbon (no chemicals), perfilter,...
- ✓ Chemical scrubbers: compact system for high flows and high H2S-concentrations.
- ✓ Biotricking filter: biological treatment of the air, no chemicals required, reduces high H2S loads

IPEC NV is a Belgian private-owned company, part of the Trevi-group. We design and manufacture such as pumping stations waste water treatment plants, oil & gas, agriculture, food industry and many more. We are strongly represented in Middle East with a production facility in Abu Dhabi and well-trained service team. We have over more than 500 references in the region: from small passive units with activated carbon technology up to chemical scrubbers with a flow of 300,000 m/h.

It is our goal to serve the client with the best available techniques and developed for different new techniques such as biological air treatment to obtain odor treatment without the use of chemical or water re-generable carbon that can regenerated by water (no chemicals required).

DOW/FILMTEC Water Filtration Membranes Brackish Water RO Elements provide consistently high performance and enhanced element life when treating difficult industrial water, enabling lower energy usage and reduced costs.

Compared to other filtration technologies that rely on a screen or filter to remove particles, Reverse Osmosis (RO) and Nano Filtration (NF) are pressure-driven separation process that employs a semi-permeable membrane and the principles of cross-flow filtration).

Product List

- ✓ High-Solids Filtration
- ✓ Ultra Filtration
- ✓ Reverse Osmosis & Nanofiltration
- ✓ Ion Exchange Resins
- ✓ Electrodeionization

FIRE PUMPS & ACCESSORIES

We supply a wide range of Fire Pumps and their accessories from different manufacturers based on their project requirements. Our suppliers are based out of the USA or India is UL and FM approved. A fire pump is a part of a fire sprinkler system's water supply and powered by electric, diesel or steam.

The pump intake is either connected to the public underground water supply piping, or a static water source. The pump provides water flow at a higher pressure to the sprinkler system risers and hose stand pipes. for commercial as well as industrial applications.

Product List

- ✓ Split Case Pumps
- ✓ Ship Fire Pumps
- ✓ Mixed Flow Pumps
- ✓ NFPA Fire Pumps
- ✓ Suction End Pumps
- ✓ Sewage Pumps
- ✓ Sewage Pumps

Since 1985 Tiratek (USA) is on the forefront of designing and manufacturing innovative airflow solutions for critical environments. Headquartered near Atlanta, Georgia, Triatex provides end-to-end solutions for healthcare facilities, laboratories, and municipal facilities around the world.

Our product line includes Venturi air valves, room pressure controllers, fume hood controllers, remote monitors, sensors, actuators, and more all designed to seamlessly integrate into a facility's building automating system.

Product List

- ✓ Venturi Valve
- ✓ Fume Hood Controllers
- ✓ Room Pressure Controllers

ATAM Valves, established in 1982 is one the leading valve manufacturers from India with their factory in Punjab, India. For over 3 decades, they have been manufacturing Flow Indicators, Auto Injectors, Industrial Valve, Globe Valve, Relief Valve, Horizontal Check Valve and allied products. Backed by experienced personnel, they are able to innovatively design their product cost efficiently.

Flow indicators are used extensively for monitoring the flow of fluids and to detect any anomalies in the industrial process line. Industrial Valve, Globe Valve, Relief Valve, Horizontal Check Valve and other valves have precision design which ensures smooth flow, and complete or partial stoppage of the flow of liquid, as per the client's requirements.

Product List

- ✓ Industrial Valve
- ✓ Globe Valve
- ✓ Horizontal Check Valve
- ✓ Union Bonnet Globe Valve
- ✓ Relief Valve
- ✓ Flow Indicators
- ✓ Lift Check Valve
- ✓ Pipe Valves
- ✓ Strainers & Cocks

Western Valve, Inc. (USA) takes great pride in its ability to produce the industry's highest quality valve. We continue to upgrade and improve our facilities with state of the art manufacturing equipment. This allows us to continue providing our customers with the best valves on the market, while still providing competitive prices and delivery times.

Product List

- ✓ Double Block & Bleed
- ✓ Double Isolation & Bleed Valve
- ✓ Reverse Osmosis & Nanofiltration
- ✓ Commercial Aviation & Military Fueling
- ✓ Propane, Butane and LPG Valves

BIFOLD (UK) are leaders in the design and manufacture of hydraulic and pneumatic stainless steel directional control valves and accessories for hazardous, corrosive and subsea environments. Enhanced by a lean and integrated manufacturing policy, alongside a unique business model, Bifold Group has provided peace of mind to contractors, installer and end users for over a century. Their innovative rang of high-tech valve and pump products and accessories for the upstream and downstream oil and gas industries, specifically designed and developed with the customer in mind, have gained worldwide approval and credibility for the onerous condition as found in hazardous (classified) locations, hostile and subsea environments.

Product List

- ✓ Manifold Systems
- ✓ Quick Exhaust Valves
- ✓ Solenoid Valves
- ✓ Chemical Injection Pumps

FOAMGLAS® Insulation is the leading global brand in innovative and technically advanced cellular glass insulation. Their sustainable products conserve energy, protect the environment, and have improved the lives of millions of people in virtually every country in the world. FOAMGLAS® is a light weight, rigid and durable insulation material composed of millions of completely sealed glass cells and offers an exceptional combination of properties such as incombustibility, superior compressive strength and long lasting thermal insulation performance. It is available in a wide range of shapes and sizes to satisfy various building requirements and industrial specifications.

Their insulation products and systems provide superior protection and energy conservation in a wide range of industrial and commercial applications including HVAC systems, power, process piping and equipment, and oil and gas storage tanks.

Johns Manville

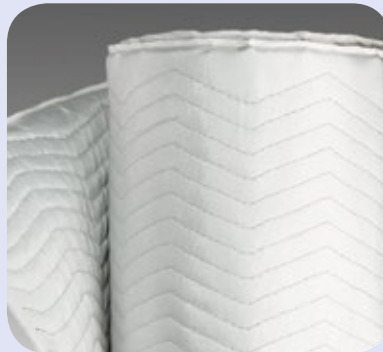

A Berkshire Hathaway Company

Johns Manville is a leading manufacturer and marketer of premium-quality insulation and commercial roofing, along with glass fibers and nonwovens for commercial, industrial and residential applications. Their products are used in a wide variety of industries including building products, aerospace, automotive and transportation, filtration, commercial interiors, waterproofing and wind energy. They are a proud member of the Berkshire Hathaway family of companies and serve customers in more than 80 countries around the globe.

Johns Manville is the leading manufacturer of thermal insulation solutions for high-temperature industrial applications. They offer the broadest range of insulation solutions engineered for the most demanding industrial applications. Each of their products provides unique features and benefits to ensure you have consistent performance that meets your specifications and design criteria.

Product List

- ✓ Perlite
- ✓ Calcium Silicate
- ✓ Aerogel
- ✓ Hydrophobic Blanket
- ✓ Industrial Mineral Wool
- ✓ Accessories

armacell®

MAKING A DIFFERENCE AROUND THE WORLD

Armacell was established in Pittsburgh, USA in 1860 as a company manufacturing corks and cork insulation for bottles and today it produces insulation materials for technical equipment, high-performance foams for high-tech and lightweight applications and next generation aerogel blanket technology employing over 3000 people worldwide.

Their product focus is on insulation solutions enhancing the energy efficiency of technical equipment, high-performance foams for sophisticated and lightweight applications, 100 percent recycled PET products and next-generation Aerogel based insulation technology.

Product List

- ✓ Closed Cell Foam Insulation
- ✓ Acoustic Insulation
- ✓ PET Foam Insulation
- ✓ Aerogel
- ✓ Accessories

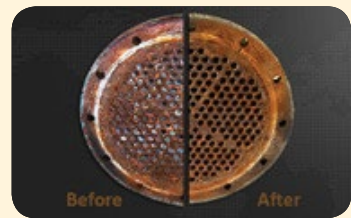

SUMMIT (USA) is an industry leader in chemical decaling and synthetic lubricant technology, serving commercial customers around the world for more than 25 years. This is a water-based solvent enhanced with wetting agents, corrosion inhibitors and degreasing compounds. It is designed to penetrate and remove encrusted lime scale, rust, dirt and corrosion by-products from water-wetted internal surfaces of commercial and industrial processing equipment.

Applications

Refinery descaling application such as Heat Exchangers, All type crackers, Converters, Air & Gas Compressors, Pumps, Piping.

Paper mills decaling applications such as Liquid-Ring Vacuum Pumps & Filters, Calendar Rolls, Mill Rolls, Liquor Tanks, Pulverizes.

Product List

- ✓ Descalers
- ✓ Degreasers

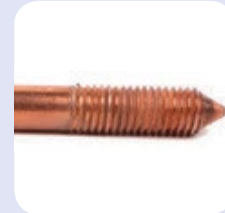

Elecraf is a leading manufacturer of cable lugs, cable glands, earthing and lightning protection accessories based in Houston, USA. Founded by first generation entrepreneurs, the corporate leadership of the company is young and poised to lead the company to greater heights. Elecraf is backed by technocrats with in-depth knowledge and year of experience in the electrical industry.

Product List

- ✓ Cable Lugs
- ✓ Cable Glands
- ✓ Earthing & Lightning

HVAC ACCESSORIES

We are proud to be associated with a wide range of HVAC Accessories manufacturers in order to provide a complete solution to our customers.

We provide all the complementary HVAC accessories to our products like Vibration isolators, Pipe Supports, Flexible Ducts, Inertia Bases, etc for commercial as well as industrial applications based on our customer's project requirements.

Product List

- ✓ Vibration Isolation Products
- ✓ Expansion Joints & Bellows
- ✓ Pipe Support & Clamps
- ✓ Seismic Isolation Products
- ✓ Flexible Ducts
- ✓ Flexible Duct Connectors
- ✓ Sprinkler Flexible Hose
- ✓ Inertia Bases
- ✓ Pressure & Temperature Gauges

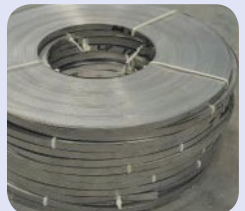

METAL JACKETING AND ACCESSORIES

We supply a wide range of Metal Jacketing Accessories for different types of HVAC applications for commercial as well as industrial projects.

We are working with many specialized manufacturers who manufacture Aluminum and Stainless Steel Jacketing, Aluminum and Stainless Steel Bandings and Wing Seals and other fastening products.

Product List

- ✓ Aluminium Jacketing
- ✓ Stainless Steel Jacketing
- ✓ Painted Jacketing
- ✓ Aluminium Banding and Wing Seal
- ✓ Stainless Steel Banding and Wing Seal
- ✓ Fastening Products
