رؤية
VISION
2030
المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

ABOUT US

Major operations in KSA, Bahrain, UAE, Qatar, Oman, Kuwait, USA & Canada with a customer base including contractors, consultants and end users

Global Supplier of a diversified range of products relating to Oil Field, HVAC, Electro-Mechanical, Water, Industrial Insulations

Provider of industrial products with complete engineering services and technical knowledge from specialist quality engineers

OUR JOURNEY

FOUNDED 2000

The foundation of what would mature and become today's JGB Group was laid by a group of qualified and experienced engineers with vision.

CONSOLIDATED 2005

The JGB group ventured into new areas and built on its foundation, in spite of global recession and restraints imposed by a controlled economy

EXPANSION 2008 -Present

The liberalization from recession leads to a period of remarkable growth in the GCC. JGB group ventures into new territories with renewed zeal.

GUIDING PRINCIPLES

VISION

To be an internationally respected company offering comprehensive solutions

MISSION

To serve the Global Energy Industry by procuring and supplying quality products manufactured and offered by leading International manufacturer

VALUES

- o Customer Satisfaction and Loyalty
- o Employee Dignity and Self Respect
- o Technical Excellence with Professional Ethics
- o Organisational and Individual Growth
- o Responsibility to Society

WHY US

STRENGTHS

- o Highly Qualified Engineers and Support staffs
- o Storage facilities in major locations
- o Service support from experience technicians
- o Country wise offices and complete product solutions

EXPERIENCE

- o Highly experienced directors and management
- o Strong engineering background of management & sales team
- o Local presence in all GCC countries
- o Vast sector knowledge & recognition in the market
- o Represent reputed manufacturers

COMMITMENT

- o Focus on engineering products where competition is less compared to generic trading companies
- o Growth in short span has given a recognition in the market
- o Participate in major Exhibitions like Big 5, Arabian MEP, MEOS and WETEX

OPPORTUNITIES

- o Develop long lasting relationship and we work very hard towards it
- o Committed to ensure that our customers can depend on the consistent, high-quality products and services from us

GULFMIST VENTILATION LLC

COMMERCIAL & INDUSTRIAL VENTILATION

PennBarry is a leading manufacturer of full service ventilation products for commercial and light industrial applications, including energy recovery units, make-up air systems, kitchen hoods and supreme fan supply and exhaust products.

With history of making fans since 1860, Pennbarry is the consolidation of several well-known HVAC brands, including Bayley Fans, Penn Ventilation, Barry Blower, Industrial Air and SupremeFan, and many key products from these brands are still made available under the PennBarry brand.

Product List

- ✓ Inline Cabinet Fans
- ✓ Centrifugal Fans
- ✓ Tubular Centrifugal Fans
- ✓ Mixed Flow Fans
- ✓ Roof Mounted Down Blast Fans
- ✓ Roof Mounted Up Blast Fans
- ✓ Propeller Fans
- ✓ Tubeaxial & Vaneaxial Fans
- ✓ Gravity Ventilators

Product List

- ✓ Tunnel Fans
- ✓ Axial Fans
- ✓ Centrifugal Fans
- ✓ Jet Fans

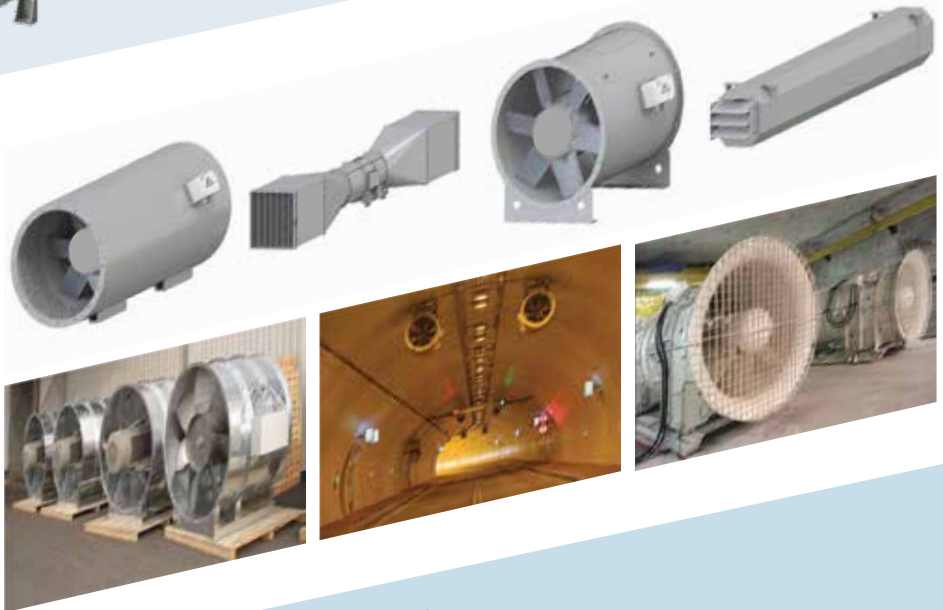

AXIAL, CENTRIFUGAL & JET FANS

CFT GmbH offers high-performance axial and centrifugal fans designed for industrial applications such as ventilation, cooling, and air circulation.

TUNNEL VENTILATION

These fans are engineered for reliability, CFT GmbH specializes in advanced jet and smoke extraction fans for road, metro, and railway tunnels. These solutions ensure optimal airflow and safety, leveraging decades of expertise to provide reliable and efficient permanent ventilation systems, efficiency, and adaptability to meet diverse operational needs

Product List

- ✓ Lab Exhaust System
- ✓ Custom Engineered Solutions
- ✓ Fume Exhaust System

ISOLATION ROOM EXHAUST SYSTEM

Strobic Air Technologies fan systems were created as a custom engineered solution to meet the exacting specifications of owners trying to solve a specific problem. By doing so, we created an industry that we continue to lead. HEPA filtration systems are available for special medical/pharmaceutical applications such as isolation room and quarantine exhaust, Level4 safety labs, or similar applications.

THE NEW YORK BLOWER COMPANY

The New York Blower Company (NYB) (USA) Industrial Fans and Blowers designs and builds fans and blowers to move air in all types of commercial and industrial applications. Today, NYB has one of the most complete portfolios in the world, consisting of literally thousands of different types, models and sizes of air-movement equipment. NYB product lines are conveniently organized in major product groupings to assist you in identifying the best fan for your system.

Product List

- ✓ Inline Fans
- ✓ Centrifugal Fans
- ✓ Fiberglass Reinforced Plastic Fans
- ✓ Plenums and Double Width Fans
- ✓ Process Heat or Plug Fans
- ✓ Packaged Fans
- ✓ Custom Fans
- ✓ Silencers / Flex Connectors

Industrial, Commercial & Agricultural Ventilation:

SkyBlade Fans was established in 2010, with the concept to use large fans to deliver top efficiency to heating and cooling systems. Through extensive research and development, and by utilizing leading-edge Short Take-Off and Landing (STOL) technology, the SkyBlade Fans team developed an air foil design that moves more air with less energy consumption.

With energy efficiency in mind, SkyBlade Fans reduce the need for heating by redistributing warmer air and reduce or replace the need for air conditioning systems by increasing air velocity and creating an evaporative effect on the skin.

Evel designs and produces HVLS (High Volume, Low speed) solutions that address the problem of Air stratification in large environments by enabling proper temperature mixing

Product List

- ✓ HVLS Fans
- ✓ HVLS Fan Controls
- ✓ Portable Evaporative Coolers
- ✓ Flower Fans

Product List

- ✓ Inline Centrifugal Fans
- ✓ Inline Mixed Flow Fans
- ✓ Residential Extractor Fans
- ✓ Residential Centrifugal Fans

Vortice is Multinational group operating through its own subsidiaries or through local dealers in more than 90 countries around the world, in the sectors of Residential, Commercial and Industrial Ventilation and air handling generally.

Around 300 people are employed in various companies of the group, operating on three different Continents: Europe, Asia and South America.

TRION®

Indoor Air Quality

KITCHEN EXHAUST SOLUTIONS FOR INDOOR AIR QUALITY

Through TRION's core technology of electrostatic precipitators, along with engineered impingement surfaces and specifically selected adsorbents designed for the removal of kitchen odors, TRION can help address any kitchen exhaust need.

Product List

- ✓ Grease Viper
- ✓ Air Boss® Model 75
- ✓ Air Boss® ATS
- ✓ Air Boss Kitchen Exhaust System (KES)
- ✓ Tridex APS Liquid Detergent

BERNER®

AIR CURTAINS

AIR CURTAINS

Headquartered in New Castle, Pa., Berner combines engineering, state of the art equipment and highly skilled workers to produce the most efficient, good looking, cost-effective, reliable air curtains on the market. Berner Commercial, Architectural, and Industrial Air Curtains effectively prevent heating or air conditioning from escaping through open doors, providing sizeable energy savings and personal comfort, along with insect control. Architects, builders, and specifiers who demand the best build with Berner

Applications:

- Architectural • Commercial • Sanitation Certified • Industrial • Hazardous Location
- Drive-Thru and Pass Thru

SONNIGER

HEATING PARTNERS

AIR CURTAINS

We supply a wide range of Air Curtains for commercial as well as industrial applications. An air curtain is a fan-powered device that creates an invisible air barrier over the doorway to separate efficiently two different environments, without limiting the access of the people or vehicles. We are working with many specialized manufacturers who are manufacturing the standard sizes as well as custom sizes based on the project requirements.

Our Air Curtain solutions are cost effective and reliable solutions which are tailored to your needs.

HUMIDIFICATION & EVAPORATIVE COOLING SOLUTIONS

DriSteem (USA) is a premier provider of humidification, evaporative cooling, and water treatment solutions for commercial and industrial applications. DriSteem offers custom systems for critical indoor environments such as health care, data centers, and other facilities requiring precise control of moisture and cooling in the air. DriSteem's 50-year history of development and innovation has resulted in multiple patented designs that not only meet, but anticipate, customers' unique needs.

Product List

- ✓ **Electric Resistive-Element Steam Humidifiers**
- ✓ **Self-Contained-Electro type Steam Humidifiers**
- ✓ **Non- Pressurized and Pressurized Steam Dispersion**
- ✓ **Steam Injection type Humidifiers for AHU's**

e.h.price | Gulf

Product List

- ✓ **Dampers**
- ✓ **Volume Control Dampers (VCD) / Backdraft Dampers (BDD)**
- ✓ **Fire & Smoke Dampers**

Fire Curtains are life safety systems that are designed to arrest the spread of fire in a building. The assembly comprises a fire resistant fiberglass fabric wound over a roller and all encased in a compact head box that is typically installed above the ceiling to be virtually invisible until activated. Smoke Curtains are used to control the movement of smoke through a building in the event of a fire. They can either channel smoke to smoke extraction points or create reservoirs to slow its spread. They remain virtually invisible when the curtain is stored in its retracted position within the compact headbox.

Product List

- ✓ **Fire Curtains**
- ✓ **Smoke Curtains**
- ✓ **Draft Curtains**
- ✓ **Fire & Fixed Curtains**

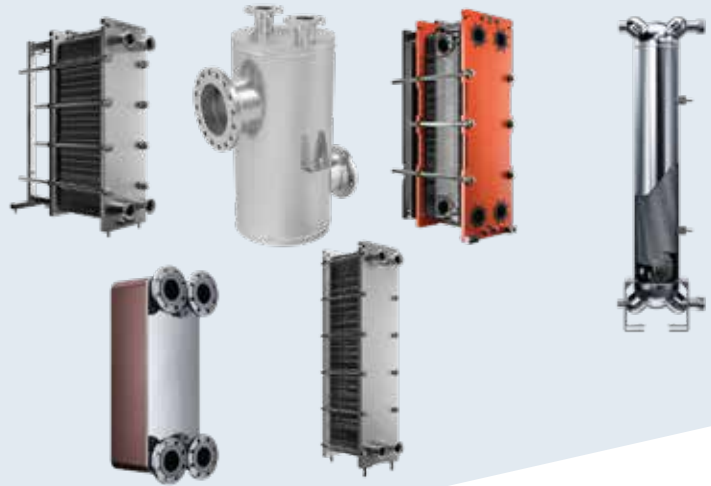

HEAT EXCHANGERS

HEXONIC is a Polish manufacturer of heat exchangers that has been present on international markets for more than 35 years. In terms of its production, in addition to shell-and-tube, brazed plate and bolted plate heat exchangers, HEXONIC also carries out orders for specialized heat exchangers for the petrochemical, heating, power, food and pharmaceutical industries.

Advanced industrial technology and in-house production of equipment guarantee top-class products. An experienced team of designers is constantly working to design ever more modern and efficient devices adapting them to customer requirements. We undertake complicated, demanding and technologically difficult realizations.

PlasmaAir

BI POLAR AIR IONIZATION

Plasma Air products are mounted in the central air conditioning system of any building. As air passes over the products, millions of positively and negatively charged ions are formed - just like in nature. These bipolar ions disperse into the occupied space through the duct system, proactively attacking airborne contaminants where they cause the most problems for occupants.

Product List

- ✓ 7000 Series
- ✓ Plasma BAR Series
- ✓ Plasma BAR-X Series
- ✓ 600 Series
- ✓ 660 Series
- ✓ 50 Series
- ✓ 100 Series
- ✓ 200 Series
- ✓ PlasmaPURE 600 Series
- ✓ PlasmaPURE 7000 Series
- ✓ PlasmaPURE AutoClean 1500
- ✓ Novaerus Defend 1050
- ✓ Novaerus Protect 200 & 900
- ✓ Monitoring
- ✓ Airflow Switches

GAS PHASE FILTRATION

PPurafil is the leading global provider of molecular air filtration. Over 50 years of experience and expertise fuels a passion for the continuous improvement of air quality. Our patented products remove harmful and unpleasant particles, gases, odors, bacteria, and viruses from the environment.

Every day, Purafil protects thousands of industrial processes, commercial environments, and people. Gas Phase Filtration specializes in custom design solutions for a wide range of vapor phase air purification and contaminant control applications. Proven Technology is developed and applied by Gas Phase Filtration in order to provide efficient, cost effective systems.

Product List

- ✓ Corrosion Control
- ✓ Indoor Air Quality
- ✓ Odour Control
- ✓ Microbial Filtration
- ✓ Toxic Gas Scrubbing

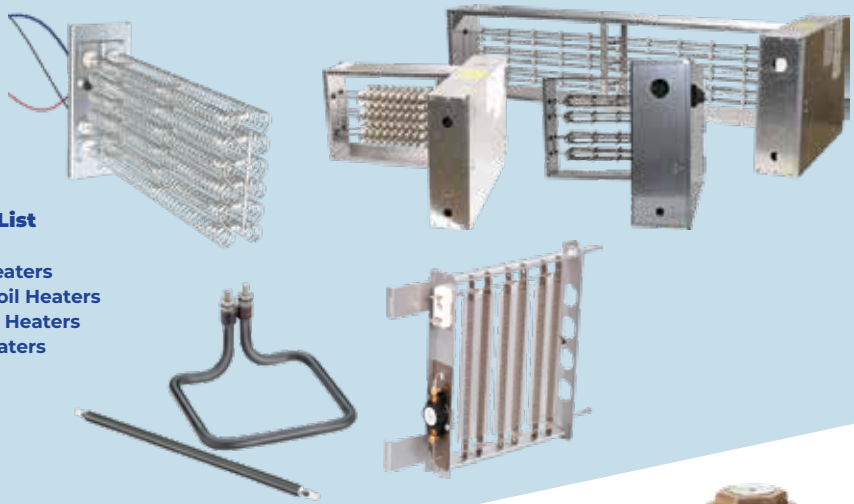

TUTCO (USA) a manufacturer, custom designing and creating products that are highly reliable and that help our customers get to market faster. Whether it is solving a problem with an existing product, adding new features, or inventing a new heating component, Tutco's depth of experience and technology is unparalleled. Innovation is not just a word to TUTCO- it's how we do business, one customer at a time.

Product List

- ✓ Duct Heaters
- ✓ Open Coil Heaters
- ✓ Tubular Heaters
- ✓ VAV Heaters

Plumbing and HVAC Valves:

Hattersley offers a range of valves that are primarily used in plumbing and HVAC applications, including both general and public health applications. Hattersley also provides a selection of pre-assembled packaged equipment such as Hook-up and Hook Up Prime, as well as a variety of balancing commissioning solutions for constant and variable flow systems.

Product List

- ✓ Isolation Valves – Gate, Ball & Butterfly Valves
- ✓ Strainers
- ✓ Check Valves
- ✓ Balancing and Regulating Valves
- ✓ Thermal Mixing and Circulation Valves
- ✓ PICV and Hoop Up Valves

Thermometers and Pressure Gauges:

Weiss provides instruments for measuring temperature, humidity, or pressure. The Weiss line of goods offers a broad range of exceptional, high-quality products that can be compliant with lead-free products and products that have approvals from UL or NSF as well.

Product List

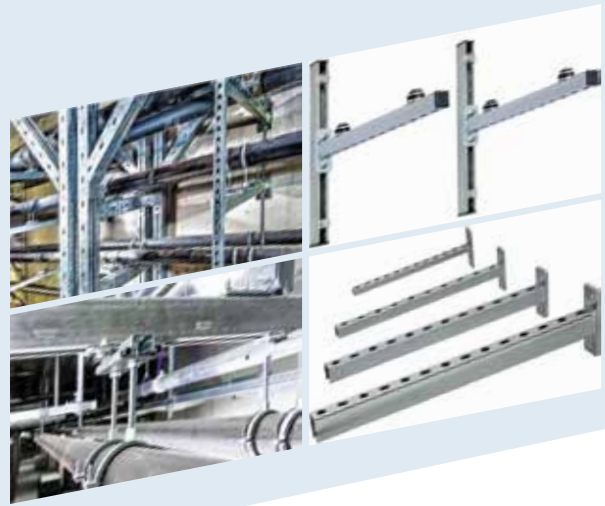

- ✓ Industrial Glass Thermometers
- ✓ Solar Digital Thermometers
- ✓ Trade Line Glass thermometers
- ✓ Hot Water Thermometers
- ✓ HVAC Pressure Gauges
- ✓ Trade Line Gauges & Liquid Filled Gauges
- ✓ Gauge Accessories

MÜPRO

FASTENING SOLUTIONS

MÜPRO is a renowned provider of high-quality fastening solutions for building technology, air conditioning, and industrial installations. With over 50 years of expertise, MÜPRO delivers innovative products for pipes, cables, ducts, and appliances, ensuring secure and efficient installations. They also specialize in certified solutions for vibration control, fire protection, and comprehensive MEP (Mechanical, Electrical, and Plumbing) services.

ANTEC controls

Venturi air valves for healthcare segment such as Labs, Isolation rooms, Compounding Pharmacy, Operation room:

Since 2011, Antec Controls has been creating high performance airflow control solutions for critical healthcare spaces.

Their goal is to innovate products and services that ensure the safety of healthcare workers, patients and researchers in environments where advancements to health and wellness are made. Through their accurate airflow control and monitoring, They ensure critical spaces remain properly pressurized, containing airborne pathogens and keeping occupants safe.

Product List

- ✓ Venturi and VFX air valves
- ✓ Room Pressure monitors
- ✓ Critical space controllers

INERTIAL FILTERS & BLEED FANS

Inertial separation is an excellent pre-filtration system, particularly suitable in environments with high dust concentration as desert areas, mines, steel and foundry factories, cement industries. This filtration system is based on the principle of conservation of kinetic energy by the airborne dust particles. Inertial Filters and Bleed fans widely used in desert areas on gas turbines, centrifugal compressors, big engines and Air conditioning & Ventilations systems etc.

Product List

- ✓ Inertial Separators & Bleed Fans
- ✓ Cyclone Filters
- ✓ Dust Collection System
- ✓ Rotary Screen Viscous Filters

BLAST PROTECTION SOLUTIONS

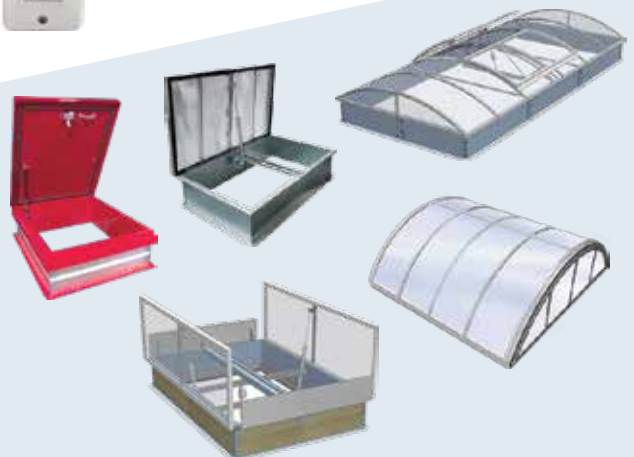

JGB specializes in providing blast protection solutions for various civilian, industrial and military applications all over the Middle East. We work with several specialist manufacturers to provide tailor made solutions for your blast protection requirements. In addition to this we also provide high integrity HVAC equipment for the Offshore Oil and Gas, Nuclear, Marine, Petrochemical, Pharmaceutical, Process and Energy Industries.

Product List

- Blast Dampers
- Blast Valves
- Blast Proof Doors
- Blast Proof Windows
- Gas Tight Dampers
- Blast Shelters
- CBRN System

SEAT VENTILATION (FRANCE) with nearly 50 years of experience in the field of laboratory fume extraction systems, SEAT VENTILATION, has become one of the few leading manufacturers of polypropylene fans in the world. Our products are corrosion-resistant polypropylene fans and blowers, but also airflow monitors and controls for laboratory fume cupboards. Our areas of application are: Laboratories, chemical industry, electronics, hospitals etc.

Product List

- ✓ Commercial Industrial Skylights
- ✓ Residential Skylights
- ✓ Custom Structural Skylights
- ✓ Heat and Smoke Vents
- ✓ Canopy Structures
- ✓ SkyGlaze Translucent Systems
- ✓ Roof Hatches and Accessories
- ✓ Safety Security Products
- ✓ BIPV Systems Photovoltaics
- ✓ Tubular Skylights

MERCOR S.A. seated in Gdansk has operated on the market since 1988. In providing comprehensive services, we strictly co-operate with building designers and constructors. We offer help in selecting and designing fire protection systems; we design equipment forming part of those systems, delivering them and installing on site. We also provide full-ranged service, constituting the guarantee of long-term reliability of our systems. The majority of our assortment is custom-manufactured on individual orders; our customers can specify the demanded product parameters, subject to regulatory safety standards and requirements.

FULTON (USA) is a global manufacturer specialized in custom engineered industrial and commercial heating systems featuring steam boilers, hot water and hydronic boilers, thermal fluid (hot oil) heaters, temperature control units and a full range of ancillary equipment.

Product List

- ✓ Steam Boilers
- ✓ Commercial Heating Products
- ✓ Thermal Fluid Products
- ✓ Ancillary Equipments
- ✓ Engineered System

Custom Controls Company (USA) has been providing Hazardous Location and Explosion Proof HVAC equipment for industry since the 1960's having production facility in Houston, TX. CCC offers a full complement of customized and Third Party Listed HVAC solutions for both the U.S. National Electric Code (NEC) market and International (IEC standards) market. Our NEC Division One, Division Two and IEC Zone 2 HVAC (ATEX) product lines include:

Product List

- ✓ Wall Mount Air Conditioners
- ✓ Window Units (Through-the-Wall Air Conditioners)
- ✓ Building Pressurization Units
- ✓ Hazardous Duty and Explosion Proof Exhaust Fans
- ✓ Purge Blowers
- ✓ Packaged Air Conditioners-for Pad or Roof Mounting
- ✓ Explosion Proof Heaters
- ✓ Refrigeration Units
- ✓ Dehumidifiers
- ✓ Split Systems
- ✓ Explosion Proof Fans

INDUSTRIAL & COMMERCIAL BOILERS

As specialists in the design and bespoke production of HVAC products, VERSOL GROUP can handle any challenge. VERSOL has the expertise to deliver a total solution for any bespoke HVAC application. VERSOL has successfully delivered innovative and bespoke engineering solutions to many companies worldwide, building a reputation along the way for reliability, integrity and on-time completion.

Product List

- ✓ Steam Boilers
- ✓ Calorifiers
- ✓ Heat Exchangers
- ✓ Boilers
- ✓ Heat Pumps
- ✓ Water Heaters

Easyflex

HVAC ACCESSORIES

We are proud to be associated with a wide range of HVAC Accessories manufacturers in order to provide a complete solution to our customers. We provide all the complementary HVAC accessories to our products like Vibration isolators, Pipe Supports, Flexible Ducts, Inertia Bases, etc for commercial as well as industrial applications based on our customer's project requirements.

Product List

- ✓ Vibration Isolation Products
- ✓ Expansion Joints & Bellows
- ✓ Pipe Support & Clamps
- ✓ Seismic Isolation Products
- ✓ Flexible Ducts
- ✓ Flexible Duct Connectors
- ✓ Sprinkler Flexible Hose
- ✓ Inertia Bases
- ✓ Pressure & Temperature Gauges

Watertech
TRADING

WaterTech trading is Water engineering division of JGB USA International Inc. a US based multinational company specialized in the supply of Engineered Industrial Products in HVAC, Electro-Mechanical, Oil & Gas, Insulation, Marine, Military, Water and other Industrial segments. Through the Corporate office at Houston, USA and branch offices in Saudi Arabia, UAE, Qatar, Oman, Kuwait, India, and Canada, we provide Engineered Industrial solutions from Internationally reputed manufacturers to the MENA region.

PRODUCTS & SERVICES

- ✓ Reverse Osmosis Membranes
- ✓ Pressure Vessels
- ✓ Cartridge filter
- ✓ Dosing Pumps
- ✓ Reverse Osmosis (RO) Plants
- ✓ Waste Water Treatment Systems (STP & ETP)
- ✓ Gas Phase Filtration (Odor Control system)

Western Valve

Western Valve, Inc. (USA) takes great pride in its ability to produce the industries highest quality valve. We continue to upgrade and improve our facilities with state of the art manufacturing equipment.

This allows us to continue providing our customers with the best valves on the market, while still providing competitive prices and deli delivery times.

Product List

- ✓ Double Block & Bleed
- ✓ Double Isolation & Bleed Valve
- ✓ Pipeline Manifolds & Terminals
- ✓ Commercial Aviation & Military Fueling
- ✓ Propane, Butane, and LPG Valves

KITCHEN FILTRATION & ADVANCED ODOR CONTROL SYSTEM

Gulf Ventilation is a leading manufacturer of commercial Kitchen ventilation and advanced Odor control systems. As the Industry's innovator, Gulf Ventilation sets the standard for the commercial kitchen Ventilation and Odor control equipment and service and offers the most Competitive pricing. Gulf Ventilation is also Known for the fastest and most reliable lead times in the industry

Product List

- ✓ Ecology Units
- ✓ Advanced odor control system (Solar Powered, Sustainable, etc.)
- ✓ Filter Boxes
- ✓ Kitchen Hoods
- ✓ Pressure ventilation Units

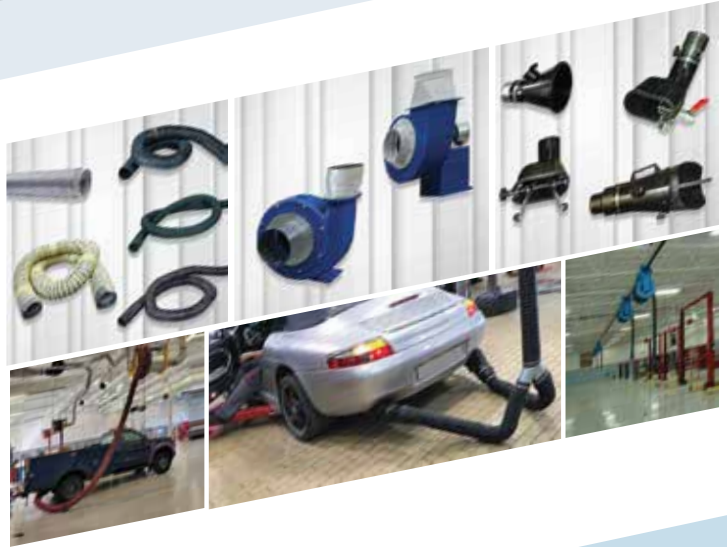

Emergency Vehicle Exhaust system

Vehicle exhaust extraction systems provide safer workplaces for emergency personnel and mechanics. In a work environment where hazardous fumes are present, having an efficient and convenient exhaust extraction system in place is essential. Some emergency vehicles, such as fire trucks, emit diesel exhaust fumes. HSE recommends that a vehicle extraction system is installed to control indoor air pollution and control exposure to diesel exhaust fumes. Automotive extraction systems are typically comprised of a flexible hose, that's connected to an exhaust nozzle to safely capture and remove fumes from the working environment.

Product List

- ✓ Emergency Vehicle Exhaust System
- ✓ Welding Fumes Exhaust System
- ✓ Dust Collectors & Filtration System

Automation and Control

The Variable Frequency Drive (VFD) is an advanced motor control solution designed to optimize energy efficiency and enhance the performance of various industrial applications.

An electrical DOL (Direct-On-Line) panel is a type of starter panel used to control electric motors. It is a straightforward and widely used method for starting and stopping motors, especially in applications where the motor is directly connected to the power supply

An electrical star-delta panel is a type of control panel used to control the starting and operation of three-phase induction motors. This type of starting method reduces the inrush current and provides a smooth ramp-up of the motor.

An ACOP panel, short for Automatic Changeover Panel, is a type of electrical panel used primarily in systems that require the automatic switching of an electrical load between two different power sources, typically between the main power supply (grid) and a backup generator or an alternative source.

Product List

- ✓ Variable frequency Drive (VFD)
- ✓ DOL Panel
- ✓ Electrical Star Delta Panel
- ✓ ACOP Panel
- ✓ Soft Star Panel
- ✓ PLC Panel

Misting System & Overhead Fans

Our Misting System and Overhead Fans are designed to keep your spaces cool while offering superior longevity. Whether you need to clear smoke or cool employees, our products send air where it's needed.

Product List

- ✔ Overhead Fans
- ✔ Misting System

INSULATION

Armacell focuses on insulation materials for technical equipment, high-performance foams for thermal/acoustic and lightweight applications, recycled PET products, next-generation aerogel technology and passive fire protection systems.

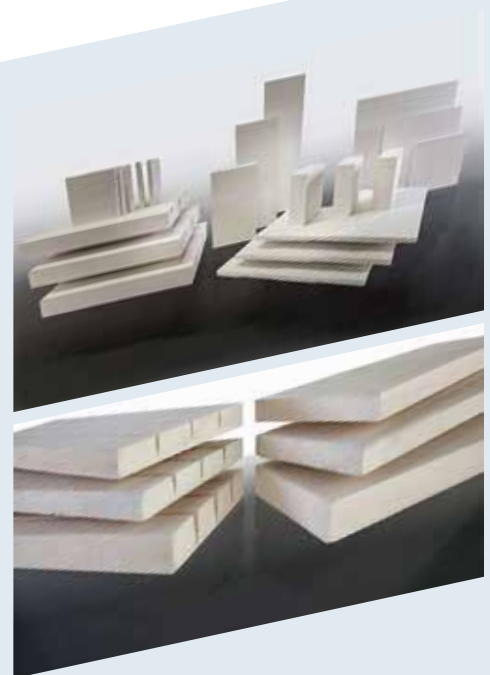

Industrial Insulation Calcium Silicate

Calcium Silicate Insulation is a rigid, high-performance material used primarily for thermal and fireproof insulation in industrial applications. It is composed of calcium silicate powder combined with reinforcing fibers, usually molded into boards, blocks, or pre-formed shapes.

Product List

- ✔ Calcium Silicate Boards
- ✔ Calcium Silicate Pipe Coverings
- ✔ Calcium Silicate Blocks and Slabs
- ✔ Composite Insulation Products

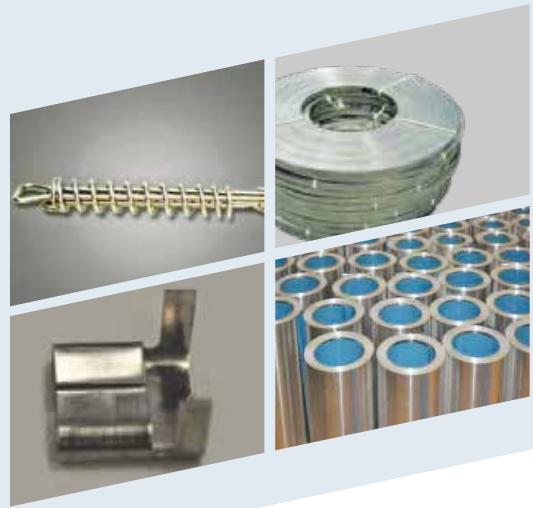

Metal Jacketing And Accessories

We supply a wide range of Metal Jacketing Accessories for different types of HVAC applications for commercial as well as industrial projects. We are working with many specialized manufacturers who manufacture Aluminum and Stainless Steel Jacketing, Aluminum and Stainless Steel Bandings and Wing Seals and other fastening products.

Product List

- ✓ Aluminium Jacketing
- ✓ Stainless Steel Jacketing
- ✓ Painted Jacketing
- ✓ Aluminium Banding and Wing Seal
- ✓ Stainless Steel Banding and Wing Seal
- ✓ Fastening Products

Cellular Glass Insulation System

Cellular glass is a rigid inorganic thermal insulating product, composed of uniform closed cells. It is made from pure glass, through high temperature foaming and annealing. It is characterized by lightweight, low thermal conductivity and high compressive strength, can be applied for pipe and equipment insulation, as well as tank bottom support and thermal isolation. It is used for insulation of:

Petrochemical.

LNG, LPG Power plant Shipyard.

Building Insulation.

HVAC Piping (Under Ground)

Product List

- ✓ 60Hz, 400Hz Static Frequency Converter 1-3kVA MMFC
- ✓ 60Hz, 400Hz Static Frequency Converter 5-45kVA FC
- ✓ 60Hz, 400Hz Static Frequency Converter 60-90kVA FC
- ✓ 60Hz, 400Hz Static Frequency Converter 120-500kVA FC

Frequency Convertors

ELIT Srl designs and manufactures 60 Hz and 400Hz static frequency converters since 1987. All the equipment is distinguished by the use of technologically advanced components, excellent reliability, and ease of maintenance. The simplicity of operation is the main feature of all our equipment
